**PLUSCO, Inc.** is a Houston based manufacturer of premium lubricants, sealants, specialty industrial products, greases, degreasers, cleaners, pipe dopes, wireline sealants, wireline sprays, thread compounds, honey oils, valve lubricants and coatings for oil field use since 1990. PLUSCO, Inc. is **ISO 9001:2008 and ISO 14001:2004 Certified**.

PLUSCO is focused on the innovation of environmentally friendly biodegradable products that will outperform the current hazardous products that are on the market today. Many of our new products are being formulated with natural biodegradable oils that replace petroleum oils, or derivatives of petroleum oils. PLUSCO's goal is to provide safe replacements for most of the hazardous or contaminating consumable products currently being used by mining, construction, offshore drilling, manufacturing, oilfield and refining industries.

The superiority of PLUSCO's patented design and development is that the result is a cleaner environment, along with less down time for machinery, workers, and production sites. Our sales staff is always available and extremely knowledgeable. There is no order too large for us to handle, we welcome bulk orders and can ship our product anywhere in the world. Large corporations that need huge quantity orders filled once, monthly, weekly, or as needed basis are no problem at all; Our team can accommodate any supply schedule.
