

PLUSCO

Product Data Sheet

PLUSCO 081 **Forging Dye Lube**

PLUSCO 081 Forging Dye Lube is formulated to prevent newly formed dye castings from sticking to mold. **PLUSCO 081** will allow ease of removal of castings from the mold without pounding or hammering of the mold and will permit easy release. **PLUSCO 081** Forging Dye Lube will not heat flash and provides minimum smoke levels during forging operation thus providing a safe and healthier work environment.

PLUSCO 081 provides minimum residue build-up in the mold and reduces time required to complete forging operations.

PLUSCO 081 Forging Die Lube is also recommended as a lubricant and antistick agent for upsetting operations. This industrial product has good adhesive properties and keeps dripping levels to a minimum during upsetting and forging operations.

BENEFITS

- * Prevents Sticking Castings
- * Ease of Release
- * Reduced Smoke Levels
- * Provides Healthier Work Environment
- * Minimum Residues
- * Good Adhesive Properties
- * Reduced Drip Levels
