Product Data Sheet

PLUSCO 374 LOW VOC BLACK WATER REDUCIBLE OD PIPE COATING

PLUSCO 374 BLACK OD PIPE COATING is designed specifically for use in Oil Country Tubular Goods in storage. It is a water reducible, fast drying coating with a 18-25 minute STT. The glossy black film keeps pipes looking mill new, and allows easy recognition of color codes stencils, or other markings, which are so important in identifying the pipe in storage racks.

PLUSCO 374 BLACK OD PIPE COATING meets the air control standards for a LOW VOC coating while providing the performance long associated with conventional solvent based products. The latest technology for safe protective coatings has been used to provide the oil industry with a product, which they can use safely.
