

PLUSCO

Product Data Sheet

PLUSCO 430 **Cable Guard**

PLUSCO 430 is a premium grade cable and wire rope coating, which contains rust inhibitors to prevent deterioration of the cable due to corrosion. It leaves a black, soft, non-tacky film, which penetrates to the core of the cable to provide complete protection.

PLUSCO 430 may also be used on chains, wire ropes, rollers, or hemp, jute, sisal, or wire cord. It may be applied by air or airless spray, brush, mop, dip tank, or pressure type applicators.

PLUSCO 430 will provide longer chain and cable life, reduce downtime caused by worn cable, and will protect against rust and corrosion even under severe weather or saltwater conditions.

PLUSCO 430 is also available in a concentrated grade designated **PLUSCO 431** Premium Cable Guard.

TYPICAL SPECIFICATIONS

Color	Black
Flash Point (ASTM D-93)	104°F
Viscosity #4 Ford Cup @ 77°F	18 – 22 Sec.
